The project fair is starting to be a *not-to-miss rendezvous* of European Cultural Centres in the month of Octobre. Since two years the project fair is a succesful activity of the ENCC, with an average of 80 participants of 15 different countries. (2006 in Vienna and 2007 in Riga)

Now, we are very delighted to announce the

**Third European Project Fair of Cultural Centres
taking place from 1st to 3th October 2008 in Brussels, Belgium.**

This year, the Flemish Association of Cultural Centres (VVC), which is the Flemish member association of ENCC, is organising the European Project Fair together with their colleagues of the french-speaking part of Belgium, ACC and Astrac, both associations of the cultural centres of Wallonia and since this year also member of ENCC.

The project fair offers you an invaluable opportunity to exchange expertise and **build up new contacts** for possible **joint projects** in the future **in a pleasing atmosphere**. Along with the fair, the ENCC prepared an ambitious programme. A few highlights: experience exchange on how to deal with human resources in the cultural centres (staff, technicians as well as volunteers), workshops on funding opportunities in EU programmes as Grundtvig and European Voluntary Service, and experience exchange on regional cooperation. Further, we will provide you with news on next ENCC-activities, information on participation at culture platforms of the EU and the ENCC-program of staff exchange.

This year's main focus tackles all those projects that enable, promote and broach the issue of intercultural dialogue. Cultural centres all over Europe are invited to present their different approaches to this subject. Special emphasis will be put on the different sectors where the projects are taking place or as which they have been categorised (such as education, lifelong learning, inter-religious dialogue, inter-ethnic dialogue etc.) in order to make the broad spectrum of cultural work visible at European level and to inspire the participating cultural centres by good practices.
